BHARATH KRISHNA

Senior Software Engineer

+1-8574379316 bharath.chakravarthi@gmail.com https://profile.krishb.in California, USA

EXPERIENCE

Senior Software Engineer

Rakuten

09/2014 - 02/2026 California, USA

- Implemented AgenticAI solutions for HPC monitoring, reducing manual work by 60%.
- Delivered platforms for LLM training and inference with 500+ users in 3 months, enhancing research capabilities.
- Enhanced user experience with DNS, TLS/SSL, and IAM, recognized with an MVP nomination.
- Automated OneCloud service releases with Terraform, cutting manual work by 90%.
- Developed core services for Rakuten's OneCloud and maintained 99.9% uptime.
- Contributed to SLAs and operation guidelines, improving smooth operations for HPC Admins/SREs.
- Trained junior engineers through tech talks and workshops, eliminating hurdles and bottlenecks.

Associate IT consultant

ITC infotech

01/2014 - 09/2014 Bengaluru, India

- Administrated source code management system at Robert Bosch
- Improved support efficiency by 60% by automating change tracking, branching and merging of source code
- Reduced legacy operations by 80% through automating change log, branching, and release tracking for MKS system

Software Engineer

EHover Systems India Pvt. Ltd

04/2013 - 01/2014 Bengaluru, India

- Built cloud based secure personal surveillance system for working parents and lonely senior citizens
- Utilized services from AWS to enhance trust on our products
- Demonstrated to small businesses, atomic families and brought 40+ customers to the startup
- Tech Specs: Perl, PHP, AWS (S3, route53, EC2), ZoneMinder

Project Assistant

Dept. of P.G. Studies and Research in Biotechnology and Bioinformatics, Kuvempu University

04/2011 - 04/2013 Bengaluru, India

- Reduced research duration by 30% by automating Molecular Dynamic Simulation using gromacs and Docking processes
- Enhanced research work with automated pipelines for drug target and ADMET property prediction and lead isolation for TRAF6 proteins
- Tech Specs: BioPython, BioPerl, LibSBML, Gromacs

EDUCATION

Masters in Bioinformatics (Genomics, Drug Design, Protein Engineering)

Kuvempu University

2008 - 2011 Shimoga, India

Bachelors in Biotechnology (Biotech, CS & Botany)

Kuvempu University

2005 - 2008 Davanagere, India

SUMMARY

Senior software engineer with 15+ years' experience specializing in HPC cluster architecture for AI/ML training and MLOps pipeline design. Proven expertise in developing and automating cloud infrastructure with Terraform and Ansible, reducing manual operations by up to 90%, and maintaining 99.9% uptime for critical services. Skilled in developing scalable RESTful APIs using Golang and Python, with deep knowledge of Kubernetes and Docker. Adept at enhancing platform security with DNS, TLS/SSL, and IAM, recognized for driving innovation and operational efficiency.

SKILLS

Kubernetes, AgenticAI, MCP, A2A, LangChain, Cloud Computing, Python, Go, Keycloak, MLops, Ansible, Postgres, Nextjs, React, Terraform

CERTIFICATIONS

Certified Kubernetes Administrator (CKA)

CNCF
